

FollowMe Desktop (FMD)

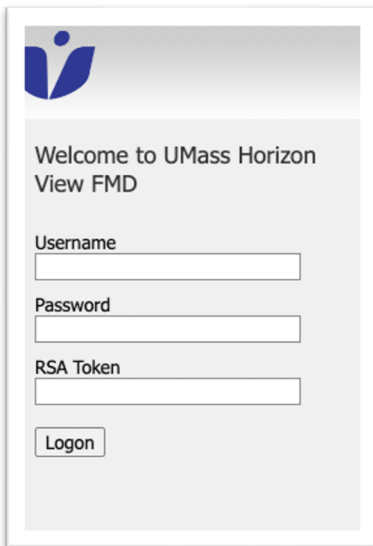

Remote Access Instructions

Follow Me Desktop allows you to access the UMMH network via an internet browser instead of with the VMWare Client. From there you can access Epic or the EHR Classroom as you normally would.

1. Copy and paste the following URL into your internet browser:

<https://view.umassmemorial.org/my.policy>

Result: The Welcome to UMass Horizon View FMD login screen displays.

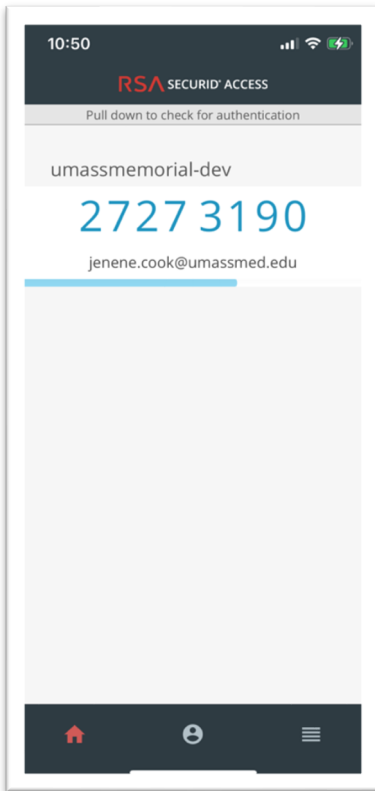

The screenshot shows a login interface with the UMass logo at the top left. Below the logo, the text reads "Welcome to UMass Horizon View FMD". There are three input fields: "Username", "Password", and "RSA Token". Below these fields is a "Logon" button.

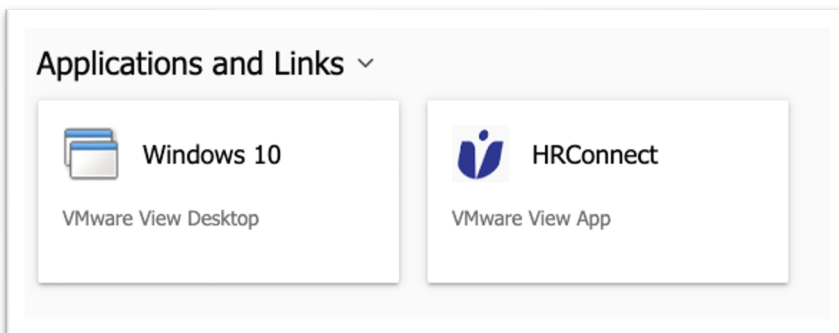

2. Enter your UMMH username and password, then open the **RSA Authenticate** app on your smartphone.

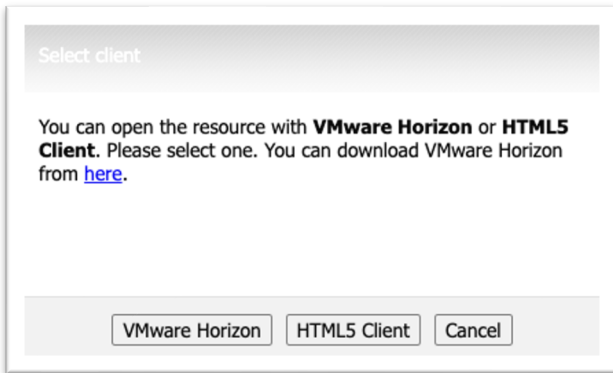

3. Enter the **RSA Token** displayed in the RSA Authenticate app then click **Logon**.

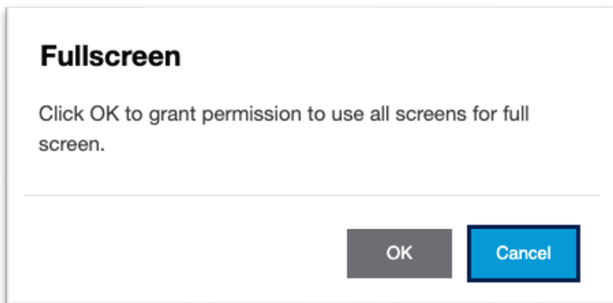

4. Under **Applications and Links**, select **Windows 10 VMWare View Desktop**.

5. Select the HTML5 Client to open FMD in your internet browser.

6. According to your preference, select **OK** if you'd like the VMWare View Desktop to be full screen or select **Cancel** if you do not.

Result: FollowMe Desktop will open in your internet browser.

You can access Epic or EHR Classroom as needed.
