UMass Chan
MEDICAL SCHOOL

CONGRATULATIONS

[Hoa Nguyen, MD, MS, PhD](#) and [Jeroan Allison, MD, MS](#) received a D43 renewal grant funded by the NIH/ Fogarty International Center for 5 years. 2025-2030.

We propose a renewal training program entitled **“Strengthening Training and Research Initiatives for Vietnam to Effectively Managing Non-Communicable Diseases (STRIVE-NCD).”** Our initial training program in partnership with Hanoi Medical University (HMU),

the Vietnamese Ministry of Health (VMOH), and UMass Chan Medical School made significant inroads in strengthening NCD research capacity in Vietnam. Nonetheless, the VMOH expressed the need for continued partnership to strengthen research capacity in the clinical and population health sciences. We will expand our existing program to other areas identified by the VMOH, including substance use, digital health, and health systems science.

FYI
